LOGISTICS AND DELIVERY

Synergy has a long working relationship for many years with a buying office in Guangzhou China as well as with forwarding and clearing agents in Namibia and South Africa. We import from China via our Walvis Bay port, Durban, Cape Town and Port Elizabeth port. Time is of essence and Synergy is well aware of the impact delays can have on projects. From China to your doorstep we guarantee quality service delivery to prove our core value. Our AIM is to make sure that all products are well packed in the containers to prevent damaging and also we do make sure that the total volume is reached to the maximum limit.

PRODUCTS

Quality, affordability and availability is always an issue in the construction industry, therefore

we are working closely with our South African Team in China to assure our customers that they can have peace of mind by knowing the fact that Synergy has qualified staff on the ground to do our quality checks, make sure there are good savings and to provide inland services in China by arranging different products from different factories and consolidate all

of those products in one container.

China is more than capable in providing a huge variety of products manufactured in different provinces and thus ensuring that we shall provide all products needed for your various

projects. Our company in China has many years of experience to know where to buy what and thus ensuring that our clients will be provided with the best products possible.

Quality and affordability are the key essence, we make sure that all products are subjected to SABS standards and international standards. Our aim is to supply our customer with a better quality of product at market related value and thus saving our client's money.

EXPERIENCE

We did extensive research in many different areas in China to source superb quality products and during these years a very good relationships were established with top manufactures that guarantee us outstanding after sales services..

PAYMENT TERMS

Suppliers from China requires all containers to be paid before leaving the port, 30% on order and 70% against the Bill of Lading. Savings up to 30% can be achieved by accepting these terms.

Terms can be negotiated where the customer can provide us with an official company order with a payment guarantee to assist bridging the payment in China.
